THE SELF-HEALING ENDPOINT *is now a* ***reality***

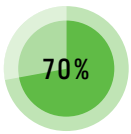
STOP REACTING TO SYMPTOMS. MAKE YOUR ENDPOINT'S IMMUNE SYSTEM UNBREAKABLE.

Self-heal your endpoints with

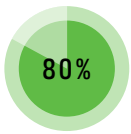
APPLICATION PERSISTENCE

- Instant, zero-touch remediation of any application
- Built-in resilience, impossible to compromise

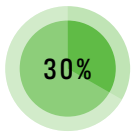
>50%
of organizations are highly concerned about reliability of existing controls[1]



>70%
of organizations don't test security controls on a regular basis[1]



>80%
of organizations take 2+ days to fix application vulnerabilities[2]



>30%
of data security incidents are caused by insiders[2]
