

# Absolute Learning Academy

The Absolute® Learning Academy team delivers instructor-led training programs designed to give students the knowledge and hands-on experience they need to use our Computrace® technology to its fullest potential.

Properly trained administrators will provide your organization with the highest efficiency threshold possible in terms of how you use our Computrace products within the Customer Center interface.

## Benefits

With the Absolute Learning Academy, you will receive:

- The only certified training available for our Computrace technology
- A variety of course options that include online or onsite classes
- Flexible payment options including training credits so you can pay now and learn at your convenience
- Useful and detailed training material that will continue to deliver value after the course is complete

## Our Team

Course instructors are Computrace product and technology experts. Each instructor uses a combination of hands-on and interactive learning techniques. They teach and verify proficiency to ensure each student has a comprehensive understanding of the Computrace technology and services.

## Payment Information & Options

Classes are available to all Absolute Software customers who use any of our Computrace products.

You must use training credits to pay for the Absolute Learning Academy classes.

Training credits can be purchased through a licensed OEM or Reseller partner or directly from Absolute Software.

Your order will be forwarded to the Absolute Learning Academy team and an educational specialist will contact you directly to assist with next steps.

## Online Training – Public

- Share a pre-scheduled class with other students with standard course curriculum

## Online or Onsite Training – Dedicated

- Class is scheduled for your convenience
- Exclusively for your employees
- Standard or customized course curriculum

Custom courses are available in any environment and can be tailored to your Computrace deployment.

Visit [www.absolute.com/services/training](http://www.absolute.com/services/training) to view the current Absolute Learning Academy course calendar.

# Absolute Learning Academy

## Class Preparation

If you register for an online class, you will require a computer, headset with microphone, and internet access. Read the Absolute Learning Academy FAQ at [www.absolute.com/services/training](http://www.absolute.com/services/training) for more information.
