

Absolute and Lenovo Security Assurance

Absolute Secure Endpoint leverages the always-on connection provided by Absolute Persistence® to allow IT and security personnel to monitor and address computers' problems and enables the computers and their mission-critical applications to self-heal. Lenovo Security Assurance utilizes Absolute Persistence embedded in the firmware of the following Lenovo North America Top Seller models (ThinkPad P1, P14s, P15v, P16s, T14s, ST15p, T16, X1 Carbon, X1 Extreme, X1 Nano, X1 Titanium, X1 Yoga, X13, Z13) to self-heal, critical security applications covered in the Absolute Application Resilience catalog.

	Absolute Visibility <i>Serves as your source of truth for device and application health.</i>	Absolute Control <i>Provides you a lifeline to protect at-risk devices and data.</i>	Absolute Resilience <i>Delivers application self-healing and confident risk response.</i>	Lenovo Security Assurance <i>Safeguards critical security applications on supported Lenovo North America Top Seller models through Absolute Application Resilience.</i>
Track Hardware				
Report and alert on hundreds of hardware attributes	✓	✓	✓	✓
Monitor device leasing reports	✓	✓	✓	✓
Track new device activations and connection history	✓	✓	✓	✓
Leverage pre-built and custom reports	✓	✓	✓	✓
Flag missing devices and be alerted when they connect to the internet	✓	✓	✓	✓
Track Installed Software				
Report on installed software by device or population	✓	✓	✓	✓
Capture Device Insights				
Collect Absolute defined data points from the DataExplorer Library ¹	✓	✓	✓	●
Configure the collection of custom data points tailored to specific needs using the DataExplorer Builder	●	●	✓	●

✓ INCLUDED

1 Contact [Absolute Sales](#) to inquire about defining new custom device data points to be made available through the DataExplorer Library.
 2 Only available for Chrome browser, on Windows and Chromebook devices.
 3 Only available for [eligible Lenovo Devices](#).
 4 Absolute Application Health is available with eligible Absolute Resilience licenses. These do not include Absolute Resilience for Education, Absolute Resilience for Student Devices and Absolute Resilience for Chromebook.
 5 Self-healing of critical applications is available through Absolute Resilience. Contact [Absolute Sales](#) for more information.

6 Absolute is continuously adding to its Application Resilience catalog of supported apps. If you have a particular application that you would like to make resilient to external factors, contact [Absolute Sales](#) to make a request.
 7 North American, UK and Australian Education Customers only. Terms and Conditions apply. See [FAQ](#) for more details.
 8 Absolute Insights for Endpoints is available as an add-on module and requires an existing Absolute Visibility, Control, or Resilience subscription. Absolute Insights for Endpoints leverages device data points across multiple Absolute features. The product's OS support is directly related to that of the specific Absolute features which provide data to the product. Contact [Absolute Sales](#) to learn more.

ABSOLUTE®

Absolute Software makes security **work**. We empower mission-critical performance with advanced cyber resilience. Embedded in more than 600 million devices, our cyber resilience platform delivers endpoint-to-network access security coverage, ensures automated security compliance, and enables operational continuity. Nearly 21,000 global customers trust Absolute to protect enterprise assets, fortify security and business applications, and provide a frictionless, always-on user experience.
