

THINKSHIELD ENDPOINT VISIBILITY AND CONTROL

ThinkShield

- POWERED BY ABSOLUTE

THREATS ARE ALL AROUND. They come from cybercriminals around the globe and even your most trusted employees. The reality is your endpoints are under constant cyber-security risks, on or off your network. Lenovo ThinkShield Endpoint Visibility and Control powered by Absolute is a cloud-based SaaS solution that maintains a constant device connection providing visibility to all your endpoints and the ability to remediate threats.

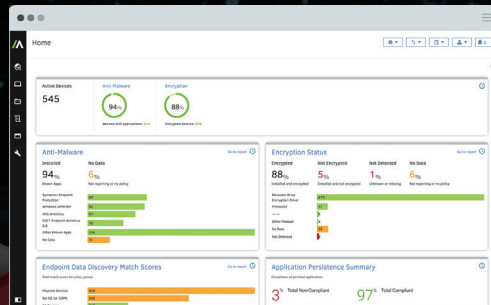

70%

of all security breaches originate on the endpoints.¹

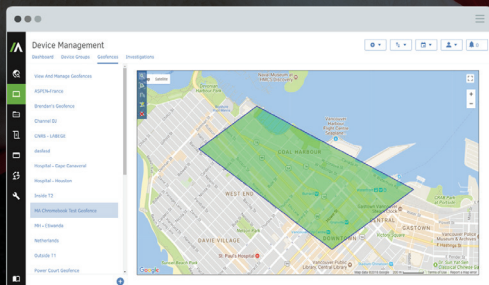

HEALTH STATUS

Complete visibility across all endpoints and the ability to pinpoint exposures, track missing devices and prioritize actions with an unbreakable tether on every endpoint, all the time.

Device intelligence ensuring you are in complete control of what was previously uncontrollable.

SEE ALL YOUR DEVICES AND APPS, SECURE YOUR DATA AND PROVE COMPLIANCE. EVERYWHERE, ANYTIME.

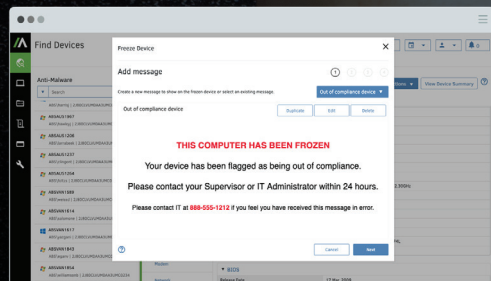

GEOTECHNOLOGY

Confidently know where your devices are, anywhere in the world, on or off your network with 24/7 persistence based visibility. Know your endpoints are in compliance with usage policies. No other security solution provides this capability and peace of mind.

THINKSHIELD ENDPOINT VISIBILITY & CONTROL IS NOW INCLUDED WITH YOUR LENOVO THINK HARDWARE.²

REMIEDIATION

Empowered endpoint management with capabilities to prompt employee behavior with device messaging, and remediate non-compliant devices with freeze and data delete. Use cases include employees leaving an organization; contractors and leave of absence employees.

ABSOLUTE®

¹ 2019 Endpoint Security Trends Report by Absolute
² Standard for 1 year from time of purchase of your new Lenovo Think device. Purchaser must activate the Lenovo ThinkShield Endpoint Visibility and Control powered by Absolute after deployment.

Lenovo

ELIMINATING YOUR DARK ENDPOINTS

SET UP IN 3 EASY STEPS:

STEP 01

ACCESS YOUR ABSOLUTE ACCOUNT AT: [HTTPS://SIGNIN.ABSOLUTE.COM/](https://signin.absolute.com/)

Simply setup your user name and credentials using the details in your fulfillment email.

STEP 02

DEPLOY INTO YOUR UNIQUE IT ENVIRONMENT:

Using SCCM, scripting (or your preferred application deployment process) with no end-user action required. Simply deploy your agent and configure your policies and alerts.

STEP 03

INCORPORATE INTO YOUR DAILY CYBERSECURITY MANAGEMENT:

Leverage the dashboard to monitor all endpoints and respond to alerts that arise during automated monitoring.

Lenovo ThinkShield has the right security solutions for enterprise, education, government and healthcare. Talk with your rep today to see how ThinkShield powered by Absolute can help you realize your cybersecurity vision.

SMARTER TECHNOLOGY FOR ALL

ThinkShield

TRY IT OUT FIRST YEAR COMES WITH YOUR DEVICE

- You will see instantaneous value.
- ThinkShield will improve the efficiency of your IT staff (operations and security teams) and free up time for them to focus on other critical initiatives.
- At Lenovo, security begins with the design and continues through supply chain, delivery and the full lifecycle of the device. Our priority is protecting you with each Lenovo product, from development through disposal.

THINKSHIELD ENDPOINT VISIBILITY & CONTROL IS NOW INCLUDED WITH YOUR LENOVO THINK HARDWARE.

NOW ALL YOU HAVE TO DO IS ACTIVATE THIS POWERFUL CYBERSECURITY TOOL!
